

Something Practical

What are Plastic cards?

Plastic cards are printed on PVC plastic and are UV coated and UV cured both sides. With durability, waterproof and recyclable qualities, plastic cards are a great option for business cards, loyalty cards & club cards.

What are the specifications?

Artwork size: 92mm x 50mm, including 3mm of external bleed for each edge.

Finished size: 86mm x 54mm with rounded corners at 4mm diameter. They are produced on a 0.4mm PVC plastic - 400gsm (approx) stock.

Production limitations?

The largest size available for Plastic cards is A3 and cannot be trimmed smaller than 45mm, with a minimum run of 500.
